***Google Analytics**

This website uses in particular Google Analytics, a web analysis service of Google LLC. ("Google"). Google Analytics uses cookies which are stored on your computer, tablet or smartphone and which enable an analysis of your use of the website. These are cookies from Google itself (Google Analytics cookies). Engel & Völkers uses Google Analytics with the additional function offered by Google to make IP addresses anonymous: Here, the IP address of Google is usually already shortened within the EU and only in exceptional cases only in the USA and stored in shortened form. On behalf of Engel & Völkers, Google will use this information for the purpose of evaluating your use of the website, compiling reports on website activity and providing other services relating to website activity and internet usage, such as Google Analytics reports on performance in relation to demographic characteristics and interests, to Engel & Völkers. You can find out how and to what extent Google processes data [here](#). Google uses the data obtained via the Engel & Völkers website for any of its own purposes, such as, if applicable, for profile formation. It is also possible that Google may link your data with other data such as a possible Google account, the search history, personal accounts, usage data from other devices and all other data that Google has on you. The data obtained in this way may also be stored in the USA, where under certain circumstances state authorities may also have access to this data.
